## SPEARCHUCKER 5

I grabbed my go anywhere junior crime buster when I saw that juicy pair of .45 caliber cantaloupes ooze into the bar. I knew this momma's problem was hot'n heavy and needed a private dick!

## PARTY 26

The musty book, bound with the flesh of a Nubian virgin, was called the Ebon Text of Spells. Gern rediscovered it on Spertazoa III. Now he was set to ass ream the universe with a little black magic!

## THE MISSIONARY 35

Poor loving unsuspecting Father Urbacius! His fate was sealed the very day Earth's Interplanetary Exploration Expedition found the odious planet Urtna! All the natives desired to do was please!

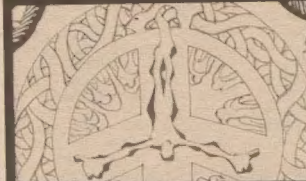

## STARFIRE SAGA 43

Three things mattered to him in the universe: his dead wife, his dead friend and his living daughter! She was in trouble and this was not the time to get his axle greased in a barroom brawl!

## BABY 51

Baby was probably the oldest object in the universe! Not that it mattered! UNICORN agents kept disappearing around it. Everything may fall into Baby in the end, but not a UNICORN agent!

## 1894 60

The entire universe had turned white! It was as if he floated in a large white cell with no escape! The entire staff must think he was mad or they wouldn't have put him in this white hole!

## EMASCULATION SQUAD AT WARREN?

1994 has finally done it. Just when I thought that this magazine of adult entertainment couldn't possibly sink any lower, **Warren Publishing** does a double back flip to the "Bottom of the Barrel." This was undoubtedly the worst story that I have ever read in a **Warren** magazine, and that is going some! I realize that the story was humorous and was not to be taken in serious vein. I have nothing against good-natured humor, but this story doesn't fall within several light-years of that category. It was downright offensive to blacks as well as whites. Author **Budd Lewis** used every racial stereotype and slur that he could think of. If there is any fallout, then all I can say is that **Lewis** deserves whatever he has coming to him. I fully expect a lynch mob, the **NAACP**, the **Black Panthers** and an emasculation squad to besiege the editorial offices of **Warren Publishing**.

The two other stories that stood out in 1994 were "The Starfire Saga" and "The Crop." "Starfire" stands out because the male characters are doing something more than looking for their next rape victim. The main character, **Steamer**, is not a spineless plastic playmate, like the other woman in this magazine. The people of the "Starfire Saga" display emotions that seem to be forbidden to the other characters of 1994.

**"ATLAS" TRUOG**  
Marshal, Minn.

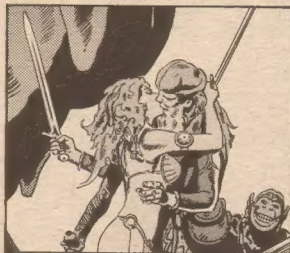

I first came across 1994 with its sixth issue, and I have been buying it ever since!

While many of the stories have been a bit too graphic in their depiction, in both art and script, of the seamier sides of life, I obviously enjoy it tremendously. I always seem to be waiting on tenterhooks for the next copy to appear here in London.

I particularly enjoy **Frank Thorne's Ghita** and the other sexy ladies whose appearance have lit up the comics world with the red glow of adult entertainment.

However, the real reason I am writing is to tell the **Warren** editors what an excellent story "The Benevolence" was. It was a real science fiction story, well told and excellently drawn. This is SF at its best, with the technologies created by man at loggerheads with moral dilemmas, and both having to deal with the iron laws of the universe.

## 1994 GOING TO THE BOTTOM?

Once again **Frank Thorne's Ghita** is the highlight of 1994. All the other stories in #14 were fairly good with the exception of "Voyage to the Bottom of the Barrel" which did exactly what the title implied.

**DARIUS KLEIN**  
Northfield, N.J.

## WHO CAN TOP GHITA?

1994 seems to have brought a basic revision with its fourteenth issue, but whether revision equals improvement is another matter. Certainly the gratuitous violence and profanity were missing, and the magazine had less of an adolescent ambience. 1994 may lose that segment of its audience that buys the book solely to get its jollies. But 1994 doesn't really need them. Now '94's adult qualities will have a chance to shine through.

"Womb With a View," for instance, would have been more at home in **CREEPY**. There is also little difference between "Baby Makes Three" and your typical **EERIE** series. "Galaxy Grand Prix" was a total waste of space (pardon the pun).

Thank goodness for **Frank Thorne!** At least there are some people that still craft their stories with love and care. For the past several issues, he has been the only reason I have continued to buy 1994. Now that **Ghita** of **Alizarr** is over, the editor will really have to hustle in order to live up to the 1994 cover blurb: "Provocative Illustrated Adult Fantasy."

The wrap-around cover by **Sanjulian** is without doubt the best cover of the year. But hasn't it been pointed out many times that **Ghita** is a blonde? Perhaps **Sanjulian** has been reading too many old **Marvel** comics.

**BRIAN CADEN**

## GHITA IS 1994!

The way I see it, 1994 can go one of two ways. Either it can feature good science fiction, which includes a healthy portion of space opera and the more modern speculative fiction. Or it can go whole hog on the sex and turn into a pornographic comic book for big kids.

It can't have it both ways. Issue #14 is testimony to that.

**Nicola Cuti's** lead story, "Womb With a View," was cute porn! **Cuti** gave us a futuristic setting. But the story could have taken place in virtually any time period. The nudity within the story was unnecessary. It certainly wasn't science fiction. Nor was it out-and-out porn! "Womb With a View" was sort of **Cuti's** compromise between the two. And unfortunately, compromises don't work!

In contrast, author **Jim Stenstrom** made no compromises with his featured story of the issue, "The Benevolence." **Stenstrom** knew exactly what he wanted to do: straight science fiction. Unfortunately, **Stenstrom** is the only one who knew what he wanted to do. Besides being lackluster and slow-moving, even for space opera, the story was not thought-provoking enough to be called speculative fiction, and it left the reader to draw his own conclusions about the story's eventual outcome.

While "The Benevolence," despite its tired pace, did manage to sustain my attention, though barely, it is definitely not the type of story which brings me back to 1994 magazine is supposed to be the purveyor of adult fantasy. Take that to mean blatant sex and rampant immorality if you will. But I see the magazine as a showcase for material and subjects which could never be touched by other commercial comic books. There was nothing unique about "The Benevolence." It could have been published in virtually any code-approved comics magazine!

On the other hand, **Frank Thorne's** excellent **Ghita** of **Alizarr** is one feature I look forward to in every issue of 1994. But it is excellent adult fantasy! Its subject matter is mature without being offensive. The storyline is exciting, interesting and fun! And the characters, no matter how good, bad or ugly they're supposed to be, are all loveable! **Ghita** is 1994. And although her first epic adventure concluded in 1994 #15, I sincerely hope we'll be seeing more of the blonde goddess in future issues!

**IDA PERE**  
Orange, N.J.

Don't let the penny dreadfuls and dime mysteries fool you. There's no such thing as a cool private eye. If anyone ever tries to tell you otherwise, they're either zonked off their dildos on cheap weed or have intellectually o.d.'d on remakes of *The Thin Man*. Me, I ought to know!

# SPEARCHUCKER SPADE

## INTERGALACTIC EYE!

Well...not really intergalactic! Actually, I've never even been east of the Orionid system...the slums, the ghetto, the asshole of the galaxy! Breeding ground of the Oreos as they call us...misfits, halfbreeds and off-colors! The po' folk what don't fit in with "society!"

Me...I had the misfortune of havin' a momma a shade darker than a wad of sick monkey shit, and a pap a little too green around the gills! I came out a pale chartreuse and was condemned forever to a life of wine watermelon and tap dancin' from one welfare agency t'another!

I didn't mind it, though!

It was a laidback lifestyle that boogied with m' natural rhythm!

It was your usual night at the Pulp Paddy, local watering hole for unemployed intergalactic gunshoes! Everyone was tryin' to bum a drink or score a toke from the next guy. And no one was getting ripped 'cept me! Rosie the barkeep was into me for settling his recent palimony dispute...by smashing his ex's ribs!

The worst part 'bout gettin' stoned in a ghetworld dive is you never know when you're really passed! No matter how shit-faced y'get, y'can always take one look at th'payin' customers and think you're comin' down with the dds.

It wasn't like that at the Pulp Paddy, though. In a manner of speakin' it was my second home! The faces, some slightly more grotesque than others, were all familiar. They, and all the scars and ugliness that came with 'em, belonged to some of the biggest dicks in the quadrant!

There was Marlowe, Archer, Diamond and McGee! Oh, they weren't the colorful, flamboyant adventurers culled from the fantasies of two-bit pulp writers. These were the hard-boiled dicks who did the dirty jobs that the unionized lawmakers wouldn't touch with a six-foot hard on! They were Spook Marlow! Bowman Archer! Ape Diamond! And Mosshead McGee!

Like me, they all opted for the big dick names to draw the clientele. The con didn't work any better for them than it had for me!

When the firm, ripe tomatato came oozing through the door sporting her .45 calibre cantakoups, every orb in the place peeled her raw!

But the fox had an eye for class. She ignored the other dicks and jiggled straight for my table like a top-heavy bowl of Reticulum jell-o! She knew cool when it was thrust before her.

The stone cold minx slithered into the chair opposite mine, and cooed in a voice that was coated with honey-laced jizzum. "Mr. Spade, I need your help!" she was halfway through her spiel, her eyes misting like a lubricious Licentium techlicker, before I even realized she was talkin' at me!

It's not that I wasn't payin' attention! It's just that after three plus bags of Enceladus Red, reality tends to become as elusive as one's next piece of ass!

I think she may have noticed my lack of interest in her plight somewhere about the time the ghetoroids went into an uncontrollable spin and were swallowed by a ravenous black hole!

I came 'round the next morning, feelin' like I'd been flushed out the retro end of a forty-ton mega-thrust crapper! If I only looked half as bad as I felt, I knew I'd scare the livin' jeebies outta th' first unfortunate lifeform I encountered!

My condition was nothin' new t' Rosie! He knew just what I needed t' raise me from the dead!

A little hair of the dog, Spade?

Don't spare the fur, Rosie, m'love!

You really tied one on! Celebratin' anything special?

Only my sixth straight month as one unencumbered by the servile bonds of employment!

Tough nuts! I thought you had the job for sure!

Job!

The one homongus tits tried to lay on you last night... just before winked out on her!

What'chu sayin' you jive-ass turkey? You mean I blew the only potential client I've had in six months?

Too bad, too! Cannons out to here! There might've been some nice residuals!

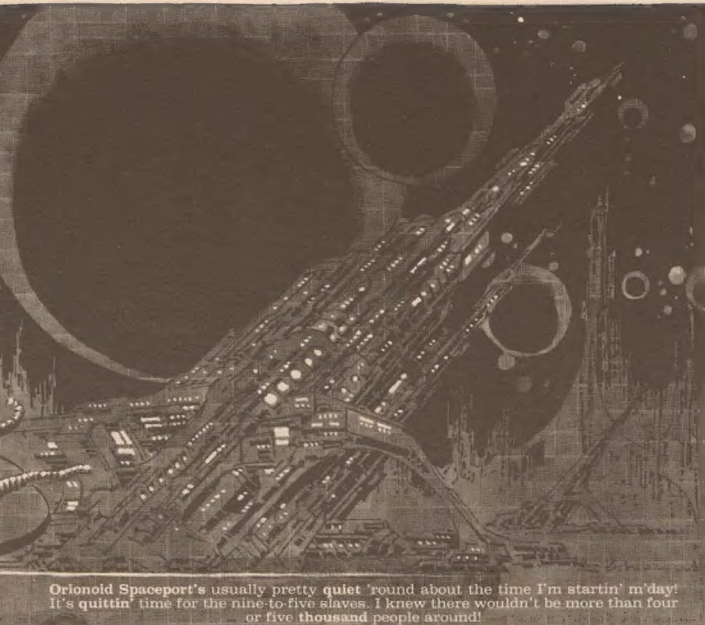

Which way'd she go, nigger?

Last I seen, she latched onto one of Bushman's tentacles and was draggin' 'im towards the spaceport!

Bushman!? Sheeit, man! That Quadri-simian spade is small bananas! He wouldn't know a heavy case from healthy dose!

It didn't seem t'make no difference to magilla tits! All she wanted was her own private dick!

Sheeit, shine! You could'a told her I got the most private dick in the system!

Orionoid Spaceport's usually pretty quiet 'round about the time I'm startin' m'day! It's quittin' time for the nine-to-five slaves. I knew there wouldn't be more than four or five thousand people around!

I got lucky quick!

I spotted jumbo juggs on the loading deck of an inter-planet troop transport!

Hey there, Momma... it's me..!

But eyeballing those juicy jalamas and gettin' within nibblin' distance were two separate matters!

That's far enough, jizzum-breath!

From  
nowhere, a  
human vice  
clamped  
himself to  
my punkin'  
head!

You  
can put  
him down,  
Worm!

You're here,  
I take it, to accept  
the proposal I made  
you last night!

Actually, I  
didn't think you'd even  
remember it!

I'm a busy  
woman, Mr. Spade!  
You can either  
accept the terms  
I laid down  
last night...

...or we  
can say  
goodbye!

Actually, I didn't have the  
vaguest hint of what her terms  
or proposition was. But times  
were lean in the dickin'  
business!

Alright!  
Alright! Who  
could refuse  
such a silver  
tongued  
fox?

One  
thing! I  
heard you  
got yourself  
another dick  
this morning!  
What happened  
to him?

Well...  
m'memory is  
a little hazy  
on th' subject!  
You mind going  
over it  
again?

I'm  
surprised,  
Mr. Spade, that  
you're among  
the living  
today!

Hey!  
Put me down,  
y'slime-faced,  
mother-reamin'  
fart-sucker!

I would'a broken that honkey  
monkey's balls and shoved 'em  
down his throat if 'momma jalamas  
hadn'ta been lookin' on! But I didn't  
want'a upset her! It was his lucky  
day!

Mr. Bushman  
had an unfortunate  
accident, beneath the  
lift-off tubes of  
a turbo-surge  
thruster!

Lawd!

One of the  
hazards of your noble  
profession, I assure! They're  
scraping off the launch  
pad, now!

Well...!?

Don't stand  
there gaping like  
a Mongolian jungle  
bunny! Get in if  
you want the  
job!

Bushman...  
deep fried by the  
ass-end of a starship!  
I can't believe  
it!

H-high mortality  
rate!? Y-you mean  
other dicks have died  
on this case?

Oh, we've had  
a few problems! But  
we thought that one of you  
people with your inherent  
rhythm would dance  
around any serious  
difficulties!

Jeezuuuuus!  
Have I got a live  
one here!

I warned you  
that the assignment  
was dangerous last  
night, Mr. Spade!

You're so  
brave, throwing  
caution to the wind  
and taking the job  
despite its high  
mortality rate!

Dance!?  
Sheeit, yeah,  
massah! You done  
come to de  
raasaht place!

Momma Jalama's turbo-cruiser was zippin' out of the ghettoroids, straight for the classier uptown system!

I had no idea where we was goin' or why! Madame ball-buster was as tight-lipped as she was tight-assed! Bout all I did know was that she was a barefaced bigot, and that somehow, she was involved with a transport full of hired soldiers!

So I sat back and enjoyed the ride! I only started t'cream in my jumpers when I saw exactly where it was we were goin'!

Jumpin' jizzum balls! What you doin', woman?

You can't go down there! That's Auger IX, private palace planet of Midas T. Goldenrod! You'll get us killed sure!

Calm down, Mr. Spade! Daddy only vaporizes those ships which violate his air space uninvited!

With all the discretion of a penisaurus in heat, I tried pumpin' her for information. But she wouldn't have none'a it!

It was obvious that off-colored dicks weren't among her favorite people.

My, but we have a short memory! As I told you last night, I'm Jezebel Goldenrod heir apparent to the galaxy!

D-daddy?

And daddy was Midas T. Goldenrod...richest man this side of Aldeberan...an' on th'other side'a it as well! He had a knack for taking barren balls of spacedust and turning them into solid gold! Literally!

Auger IX was his world! His home! It was also the most opulent piece of real estate south of Heaven!

Now the cruiser full of mercenaries made sense! They were Goldenrod's hired guns...probably new recruits for his famed security force!

I'd seen his face on a hundred different boob-tubes! He was fat and ugly with skin the color of a mashed slug! Predictably, he was surrounded by the most gorgeous pieces of firm, fresh feminine hairpie I'd ever had the sudden spurts for!

Jezebel! What kept you baby? And who's the green-skinned nerd?

This is Mr. Spade! He's a detective!

You know, about the little problems we've been having. I thought Mr. Spade could help out!

Oh, Jezebel! You always were such a precocious child! You know he'll just end up like the others!

But...as you wish! If you break your little Spade, daddy will just have to get you another!

I've got a haunch we've met before!

I'm getting the same feeling, Mr. Spade!

Yes, Worm... Spade is going to do very nicely!

Break her little Spade? I didn't like the sound of that! But seein' as how I was on the case, so to speak, I vowed I'd do my level best to get, as Jezebel put it, to the bottom of things right then and there!

Old man Goldenmeat was notorious for his extravagances. Being the righteously sane, down to earth, jive-ass shine that I am, though, I always thought that a lot of what I'd heard about him were blatant, raving, raw-faced lies!

Nice place y'got here, M.G. Reminds me of Earth's old Vatican!

This is the Vatican, my dear Spade! I imported it feeling it would make an excellent service entrance for destitute delivery boys and penniless private investigators!

Service entrance? Sheeit!

But then, you are not here for sightseeing, are you, sir? You are supposed to find out who it is exactly that has been trying to kill me!

So that's it! I was wondering what it was all about! Someone's after your alabaster ass, eh!

Your arrogance, Mr. Spade, is almost as appalling as your chartreuse skin! You know, surely, that there have been forty-two attempts upon my life!

And you are aware, I'm sure, that forty-two separate investigators have been slain trying to uncover the blackguard behind these odious perils!

Now I suggest you do the job for which you were retained...before yet another attempt goes awry...and you, Mr. Spade, become victim number forty-three!

SPAAAAADE!

It was a dud, of course, which had failed to detonate! On the floor, not three feet from where it would've landed, was little golden puddle!

It hit me then that if I'd followed him like a faithful little dick, I would've been impaled by the tip of the rocket...and become victim number forty-three!

Where's Jezebel...and that monster she hangs with...Worm?

Y'might say I was really lookin' forward t'immersin' myself in the issue at hand. But of 'Goldenshaft came chargin' at me as though a Reticulum rectum-reamer was hot on his tail!

His irrational babbling made me take a keen and sudden interest in his immediate plight! From what I could deduce between his chokin' sobs, there was a photon-nosed manmasher embedded in his ceiling!

My logical detective mind told me it was where Goldendork was standing when the missile hit and he pissed in his pants!

Saved by the skin of m'lusts! The case was gettin' downright serious! And as Goldenballs cried like a baby, I wondered who might want to nail his rotund ass! But more important, who was after me?

In the back of my mind, the number forty-three played over and over again...numbly trying to tell me something!

But for a glorious, impossible instant, I thought the fireworks were a by-product of my own insatiable lusts!

Er...right, M.G.! I'll get right in it...er, on it!

That is... I'm coming...so to speak!

But before I could get after his ninety ass, a mini nova ripped through Goldenjewel's palace!

Forty-two fumbled snuffings! I was impressed! Someone was going to a lot of trouble to scare the shriveled cubes off the richest man alive!

Either that...or someone was an incredible fuckup! But dedication or no, I had no intention of laying down my life for Mr. Moneybags Goldenshvantz!

I know where they are, are, lover!

So do I!

Follow me!

Goldenwad's pussy patrol seemed more than willing to help me chase the man.

They unhinged me through the porous palace, and the... I started... I started... I started...

They moved me into a room where the heat, if you would call it that, was the size of the floor. Or, wasn't it the floor?

I remember known something was big there.

But it wasn't started tearing at a toilet! I realized they wanted a probe more than the... the... the...

And who was I? I deny anyone the milk of human kindness? I dived for what seemed like hours, exploring the sundried and varied... of Goldenwad's more intimate problems!

All the while, I couldn't stand to be turned back to... that I was being... by sinister... malevolent eyes!

I felt like victim forty-three for the... I felt like... I felt like... I felt like...

I was... I was... I was... I was... I was... I was... I was... I was...

I hope this isn't getting to be too much for you, Mr. Spade!

No, ma'am! Y'might even say I got this case dicked!

You...uh... wouldn't know where I could find daddy?

The last time I saw him, he was down by the pool! Maybe you should look in on him!

I'll do that!

The good... I was... I was... I was... I was...

... I was... I was... I was... I was...

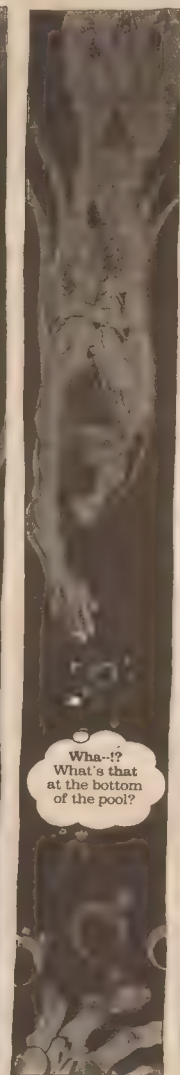

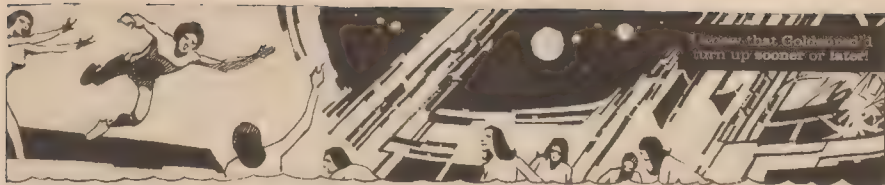

Spearchucker! Baaaaaby!

Spade, lover!

Where've you been?

... I was... I was... I was... I was...

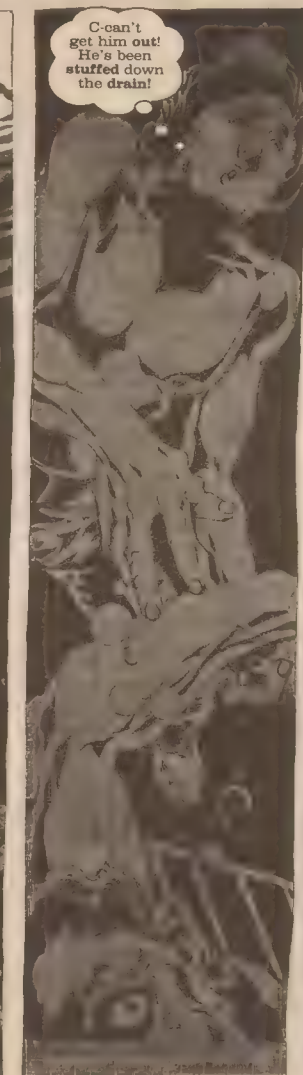

Wha-!?  
What's that  
at the bottom  
of the pool?

Sheeeet!  
It...it's  
Goldenrod!

C-can't  
get him out!  
He's been  
stuffed down  
the drain!

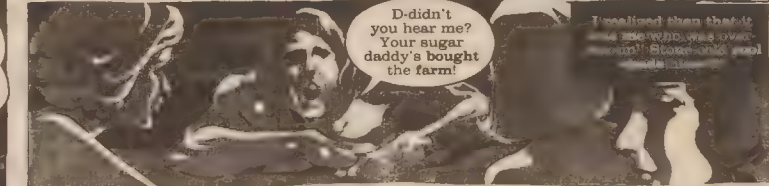

Gotta...  
gotta get  
air...or  
I'll be  
shittin'  
fish just  
like ol'  
Moneybags  
there!

I cut the surface gulpin'  
flies like a real dead frog!

Gaaa!  
Goldenrod's  
Gasp! Dead!

I didn't get a chance  
to see Goldenrod's  
reaction to  
havin' it, but  
they musta been  
too shocked to  
react.

Didn't  
you hear me?  
Your sugar  
daddy's bought  
the farm!

I realized then that it  
was me who was over-  
board! Some old guy  
was in there!

There wasn't much  
anyone could do! And  
besides, Goldenrod's  
lovelies had probably  
been used themselves to  
the imminent depar-  
ture long ago! I  
mean, just can't blame  
enough forty-three  
assassination at-  
tacks without some  
kind of emotional  
drain!

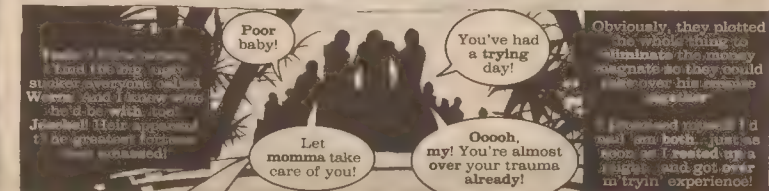

They were the  
baby, and  
righteous  
revenge that  
was over! I  
got the map!  
I'd fucked up  
royally! I  
mean I'd been  
lied & prob-  
ably makin'  
like a  
cork!

Goldenrod didn't  
shove himself down that  
drain! Somebody big  
an' mean did it!

An' I think  
I know just  
where t' find  
him!

Poor  
baby!

You've had  
a trying  
day!

Let  
momma take  
care of you!

Ooooh,  
my! You're almost  
over your trauma  
already!

Obviously, they plotted  
the whole thing to  
eliminate the money  
baggage so they could  
take over his estate  
easier.

I looked at him, I'd  
said and both just as  
soon as I rested up a  
bit, and got over  
m' tryin' experience!

I found myself looking  
for the way that decided  
to take his down to  
entrance...

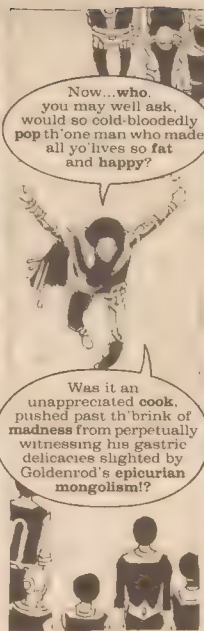

I glared at 'em all with  
m'cold, calculatin'  
private eye...wearin' 'em  
down with m'raw steel-  
edged nerves! It was  
th'moment of truth! An'  
like th'melodramatic  
dick that I was, I played  
th'scene for all it was  
worth!

You all **know**  
why you're here!  
The **killer** of Midas  
Goldenrod is in  
this very **room**!

Now...who.  
you may well ask,  
would so cold-bloodedly  
**pop** th'one man who made  
all yo'lives so fat  
and happy?

Was it an  
unappreciated cook,  
pushed past th'brink of  
madness from perpetually  
witnessing his gastric  
delicacies slighted by  
Goldenrod's epicurian  
mongolism!?

Perhaps it was  
an unbalanced **gardener**,  
crazed from endlessly seeing  
his **peonies** trampled by  
the **flagrantly floral**  
**retard!**

Or might it even have been a maniacal **scullery maid**, ired at having her pert putz perenially pinched by the licentiously libidinous lecher?

It could  
even have been a  
beloved but greedy  
progeniture and he  
lover ..scheming  
to inherit an  
ill-gotten  
empire!

But the answer is obvious! It ain't none'a the above! The real killers of Midas T. Goldenrod..

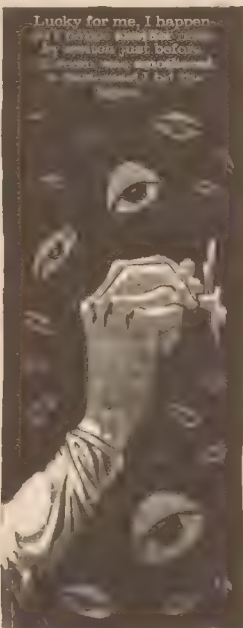

...are the  
forty-three  
**concubines** he so  
diligently chose  
to **ignore!**

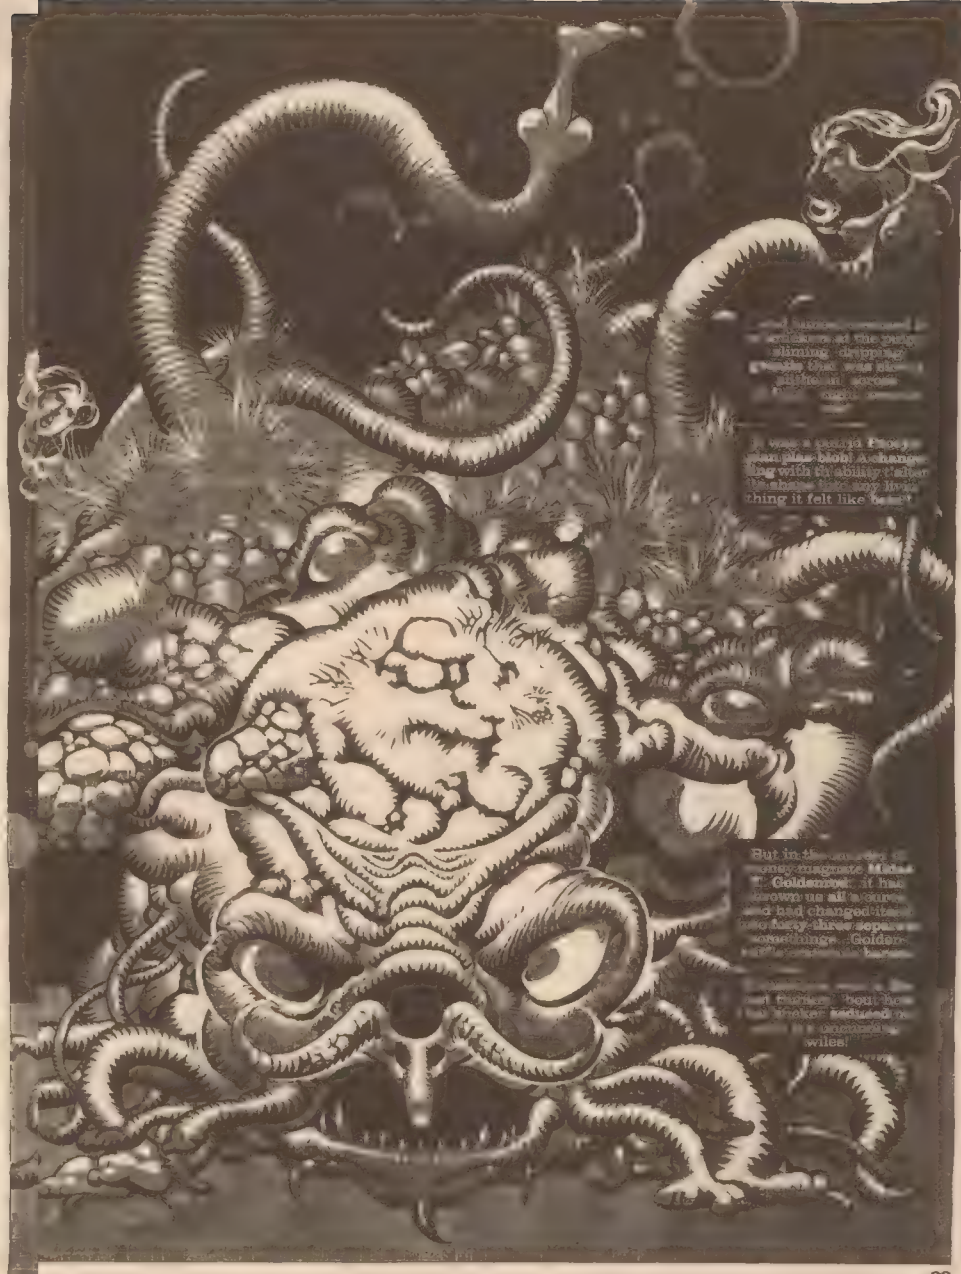

I could'a told you what we'd gonna do: we'd

But... in  
the...  
brilliant... says  
for... killer  
is the... right  
n...

Lucky for me, I happen

It was a good fit. I was  
a little bit of a change,  
but with the ability to  
change, it felt like being  
something it felt like being.

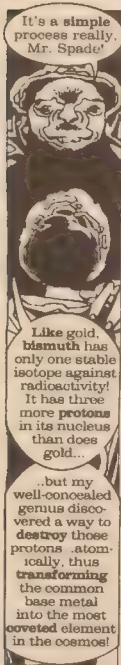

But in the end, says Goldstone, "it has shown us all a sure, it had changed it." He says three topics, "crossing," Goldstone

...you be  
...induced to  
...wiles!

...and the Nubian virgin, was called the Moon Priestess. Not much else was known about her.

Your dorm door was open. Glarn, so I-!

Omigod! What the devil are you doing!?

Aw shit, Angela! You broke my concentration... just when I was getting that hairy Malayan sand demon to finally do my bidding!

# COMING OUT PARTY

Oh, Glarn... you promised me you'd lay off this black magic crap!

Don't be pissed at me, honey-cakes! I can explain everything!

My metaphysics prof wants a term paper on the perils of metaphysical manipulation and I thought I'd delve into a little pure research!

Research my ass! You get a charge out of fucking around with the occult!

I even tried to look the other way when you went bonkers over tarot cards and had your tentacles read!

Look, Glarn, I didn't mind when you started screwing with ouija boards!

But black candles, pentagrams and spells that go bump in the night are a little much, lover! Even for me!

But, Angela, my little squirtcakes...you've got a vibratory rate I can resonate with!

Besides, you're the best piece of ass I've ever had! You...you can't leave me now! Please!

I'm sorry, Glarn! I want a bedfriend...not an interstellar Druid!

I don't care how many cocks you've got! Our relationship is over!

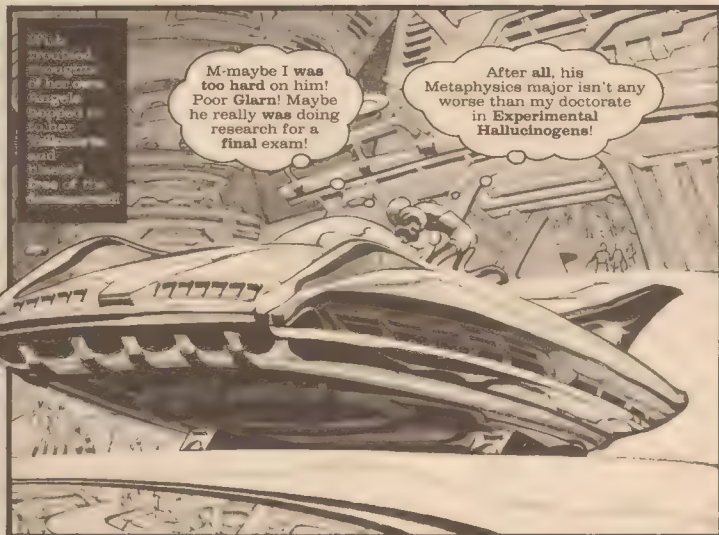

She... she's gone!

A whole wonderful two days together... flushed down the crapper!

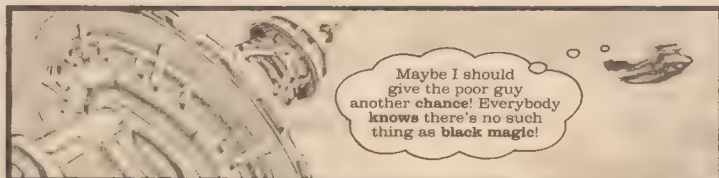

I can't just let her walk out on me like this! I've got to get her back...or I'll be the laughing stock of the Cosmos Campus!

M-maybe I was too hard on him! Poor Glarn! Maybe he really was doing research for a final exam!

After all, his Metaphysics major isn't any worse than my doctorate in Experimental Hallucinogens!

Maybe I should give the poor guy another chance! Everybody knows there's no such thing as black magic!

Aha! I've found it! The perfect spell! Little Angela's about to come crawling back to me on those bountiful tits of hers!

I'll just conjure up Taraka...a nasty perverse spirit from Odious IV! He'll know how to deal with her!

I have to remember though, to stay inside my protective pentagram, to shield myself from the cunning demon's legendary treachery!

The extraterrestrial acolyte devil tittered and cackled a blasphemous spell. He followed the ancient, almost forgotten mystic rites to the letter...

What unthinking fool dares summon forth Taraka...dread master of unparalleled perversions!

I dare! Glarn von Zikroin...supreme master of mystic enchantments!

I have a minor problem which only you can solve!

As you  
command.  
"master!"

Hot damn! I did it!  
I really did it! After this  
Angela will be mine  
forever!

Shit! I  
could use a  
**drink** to calm  
my nerves!

But that smell...  
phew! And talk about ugly--!  
That sucker makes Quasimodo  
look like a beauty queen!

Eh...?

Oh fuck!  
He can't be back so  
friggin' soon!

[illegible]

Have to  
nose-dive for  
my pentagram  
...fast!

Ha! Ha! Ha! Ha!  
Ha! Ha! Ha!

The dark deed is done.  
"master!" Do you wish to  
view my vile handiwork?

Dark deed?  
Vile handiwork?!  
What are you  
talking about?

Where's my  
**Angela?**

You left the problem in my capable hands, did you not, oh **supreme sage** of mystic enchantments? Then **gaze**, mortal, into your suddenly-entranced mind's eye... and **observe** the vision of your **own** perverse **retribution!**

"First, an exploded satellite in space... a ball of fire and elements... and then the rocket!"

It's time to get serious about protecting your pods from cup-ture acid and other nasties.

No...no!!

"Her craft  
was wide  
and control  
as it entered  
down through  
the atmosphere

EEEEEEEEEE!

Hahahahaha!

"...only to  
be...  
barbules  
which...  
and...  
well...  
be..."

S-servitude?

While I am the demonic  
master of the perverse!  
Have you forgotten? And the  
perversity I desire in pay-  
ment for my service.

...is you!

W-what are  
you talking  
about? I'm the  
master around  
here!

Hahahahaha!  
It has been a long  
time since I've  
tasted of carnal  
fruits!

You must leave your  
pentagram sometime, my  
little friend. And when  
you do...your ass, as  
the saying goes...

...is mine!

NOOOO!

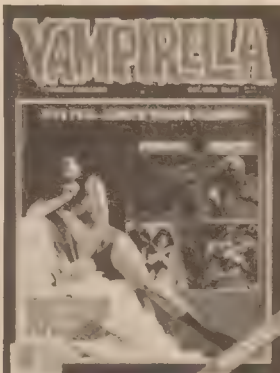

NOOOO!

Oh, noble "master,"  
you sound disappointed!  
Have I not served  
you well?

The female is yours  
for all eternity! Her  
watery grave is upon your home  
planet! She will forever be there  
awaiting you...even after  
your servitude to me!

# THE MISSIONARY

Have you  
ever heard of the  
**Reverend Father Cranfranz  
Urbacius?** No? I'm not surprised!  
Poor Father Urbacius! He was one  
of those unfortunate **missionaries**  
who gave his all spreading the  
good word among the ungodly  
heathens of the cosmos!

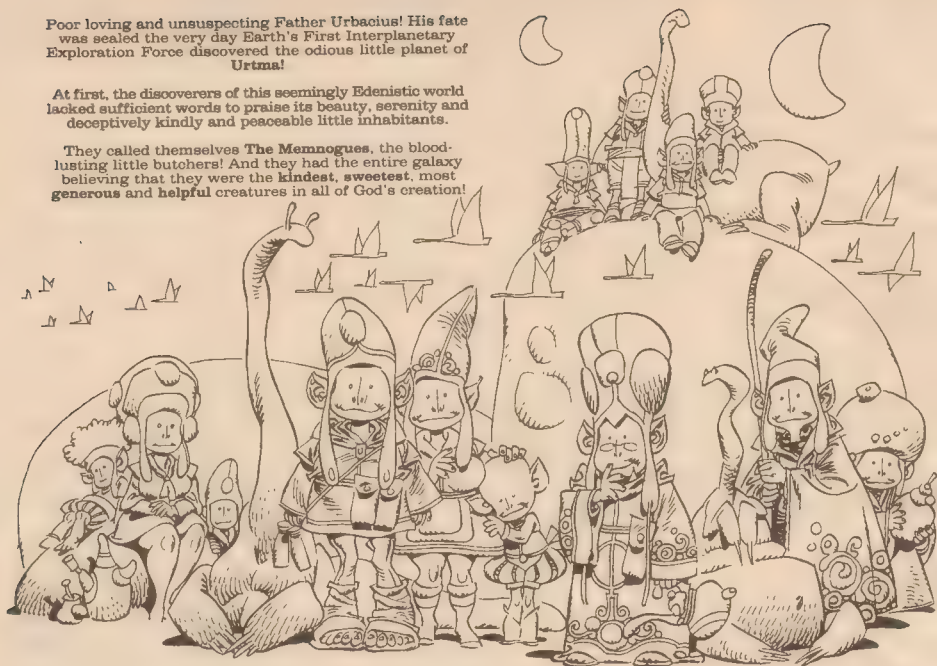

Poor loving and unsuspecting Father Urbacius! His fate was sealed the very day Earth's First Interplanetary Exploration Force discovered the odious little planet of **Urtma!**

At first, the discoverers of this seemingly Edenistic world lacked sufficient words to praise its beauty, serenity and deceptively kindly and peaceable little inhabitants.

They called themselves **The Memnogues**, the blood-lusting little butchers! And they had the entire galaxy believing that they were the **kindest, sweetest, most generous and helpful** creatures in all of God's creation!

With the sincere belief that the seeds of faith would sprout **fertilely** among these tiny beings, kindly Father Urbacius was naively sent into their midst!

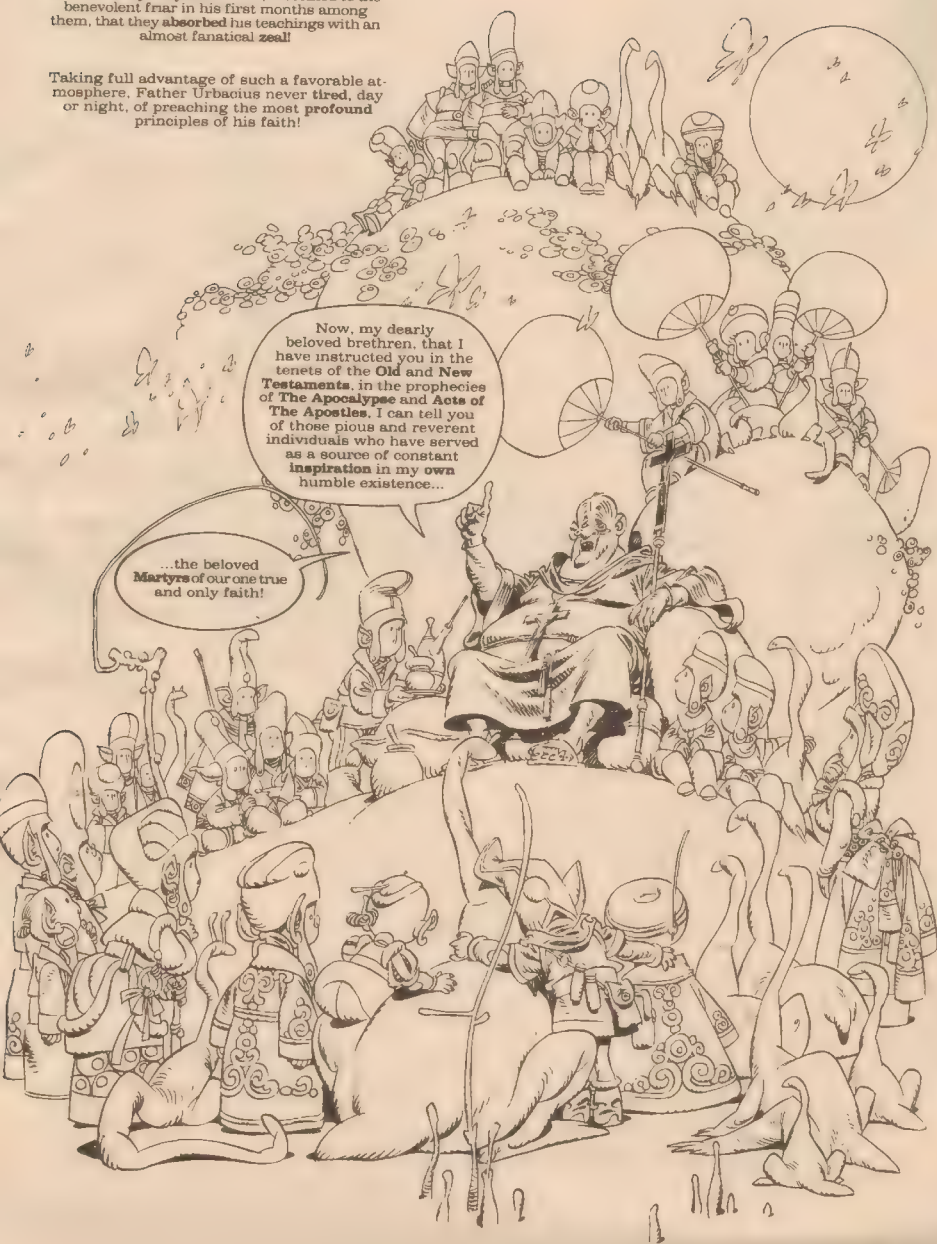

It was like unto sending a newborn babe into a **viper's den!**

The Memnogues greeted Father Urbacius with their warmest hospitality and almost reverent respect. They obeyed him and, it seemed to the benevolent friar in his first months among them, that they **absorbed** his teachings with an almost fanatical zeal!

Taking full advantage of such a favorable atmosphere, Father Urbacius never tired, day or night, of preaching the most **profound** principles of his faith!

The Martyrs  
of the faith! Poor  
unsuspecting Father  
Urbacius! It was  
always his favorite  
subject!

Oh, may the  
Heavenly Father praise  
them all! There was undaunted  
Saint John who achieved the  
eternal light by having his  
corporeal form boiled in  
blistering blubber oil! Saint  
Aqueda, whose pious and earthly  
head was tortuously and  
tormentedly ripped from  
his mortal being...

...and Saint Sebastian,  
studded like a perversely  
punctured pincushion by dozens  
of deviously damaging arrows!  
But pity not our piously pain-  
wracked predecessors! For  
through sadistic tortures, they  
were received into paradise  
by glorious legions of  
cherubim and seraphim!

The young  
martyrs who suffer  
the torment of strangling  
and quartering, the rack  
and the stake, bear it  
all in ecstasy...

...for they know  
that their reward is a  
reserved seat at the right  
hand of the Creator...  
Lord of the Celestial  
Hosts!

And so it went,  
day after day, with beneficent  
Father Urbacius preaching of the  
trials and tribulations of his  
faith's most venerable  
heroes...cases all worthy of  
imitation!

Oh, Reverend Master, forgive this unworthy dungworm for daring to question! But will the soul of any man bearing martyrdom go to his Heavenly reward?

Without doubt, my son! Our charitable Creator espouses all who lay down their lives for their faith!

And you, venerated father? Is it your most ardent wish to one day be a saint, residing in our Lord's Grand Hotel in the sky?

It is my sole, singular and only desire, my son!

Oh, but in that case, we must help you, father!

H-help me!? Wh-what do you mean...help me?

Beloved Father, we are going to humbly but resolutely flail your body and drench it in boiling fish oil... just as the pagans did to Saint Iacintus!

The Memnogues took naive Father Urbacius gently but firmly...

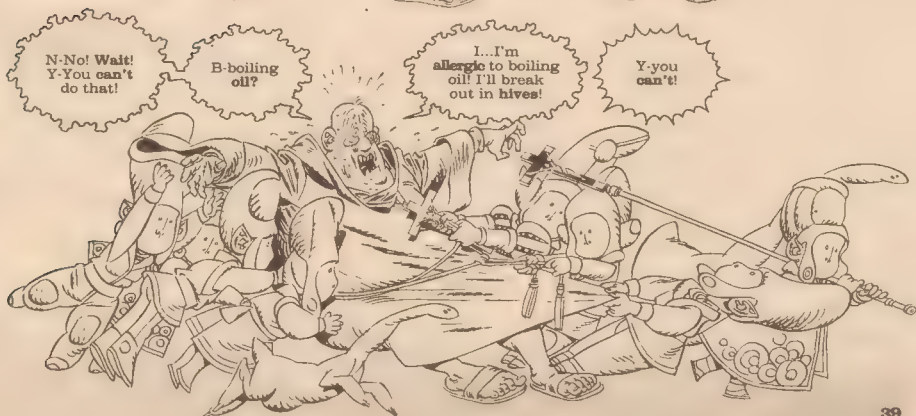

N-No! Wait! Y-You can't do that!

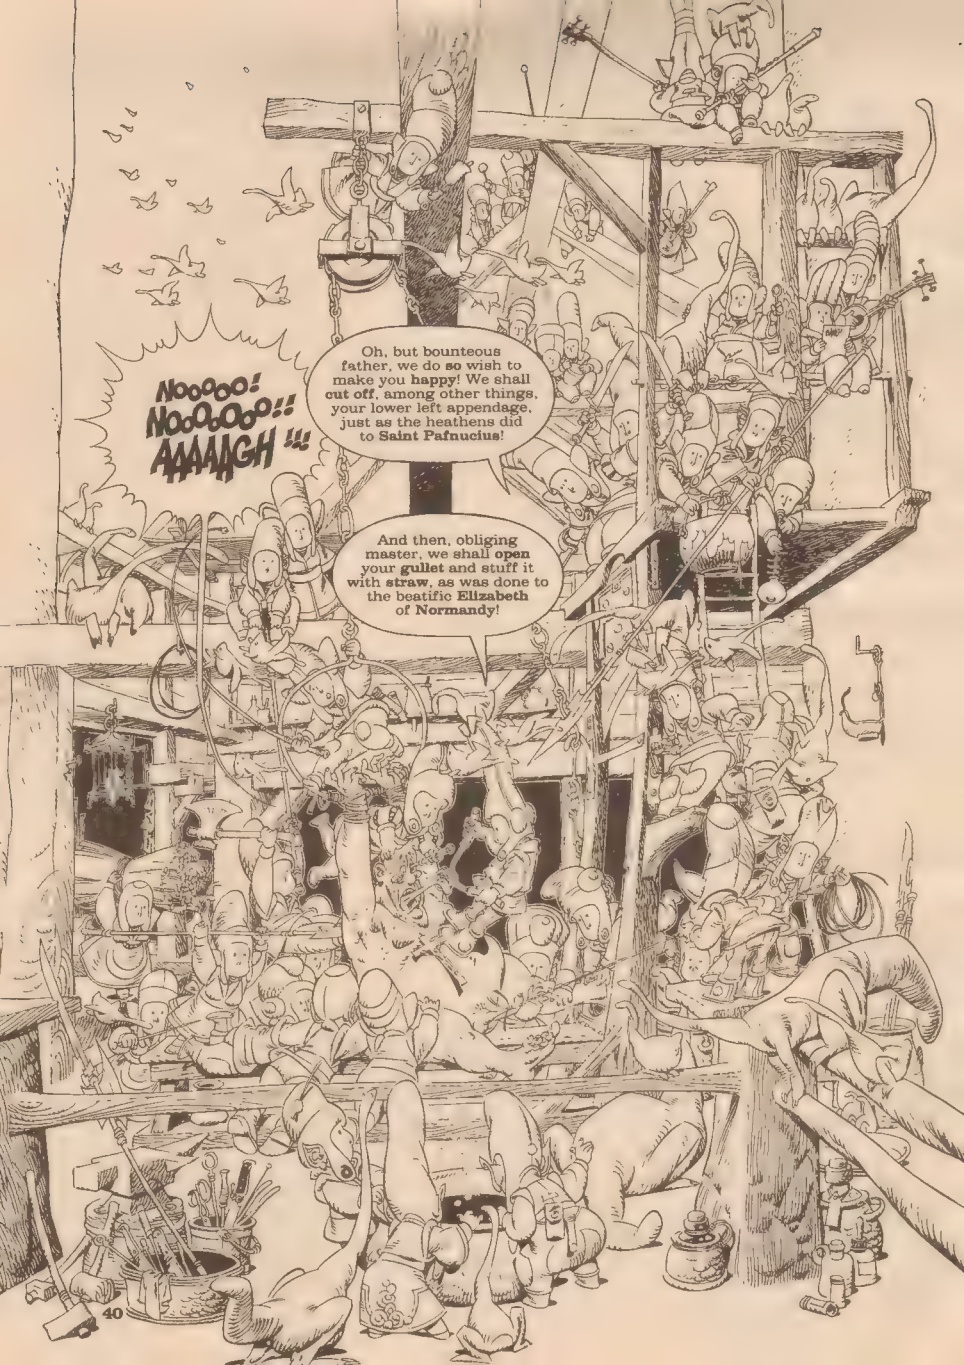

B-boiling oil?

I...I'm allergic to boiling oil! I'll break out in hives!

Y-you can't!

Nooooo!  
Nooooooo!!  
AAAAAGH!!!

Oh, but bounteous  
father, we do so wish to  
make you happy! We shall  
cut off, among other things,  
your lower left appendage,  
just as the heathens did  
to Saint Pafnucius!

And then, obliging  
master, we shall open  
your gullet and stuff it  
with straw, as was done to  
the beatific Elizabeth  
of Normandy!

And because we  
love you so, we have  
impaled you... just like  
the Emalquites did to  
Saint Hugo so many  
years ago!

And we have,  
adored teacher,  
mashed your ribs  
as did the ungodly  
Tyracusians to  
Saint Henry of  
Padua!

But best of all,  
reverent guardian of  
our souls, we will slowly  
toast you over a hallowed  
pyre, so the compassionate  
Creator will find you as  
worthy as the humble but  
highly charcoaled  
Maid of Orleans!

When all was done, the poor little Memnogues began to weep disconsolately for their beloved lost minister! That's how I found them...sobbing bitterly over the smoldering remains of saintly Father Urbacius!

**Murderers! Butchers! Heathens! Pagans!** Hell itself is too good for you! You have sentenced your very souls to an eternity of damnation! And even that is insufficient penance for your heinous crime!

We know, venerable father! We know! But gentle **Father Urbacius** always told us that there was nothing one good Christian wouldn't suffer for another!

So, however much we despaired, we decided to forego our own salvation, as long as our adored Father Urbacius attained the martyrdom and Sainthood to which he so ardently aspired!

And you can't begin to understand how difficult it was for us! Because until Father Urbacius told us how...no one on Urtma could hurt a fly!

# The starfire saga

*Richardson*  
800

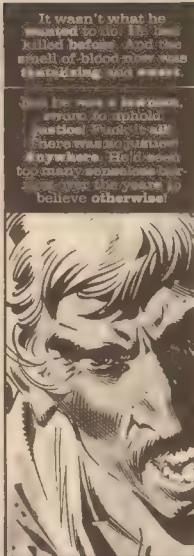

He approached the town, a shadowy, dark, and dreary place. He was a stranger and the people of the town were not what was him again.

He was a stranger, a man of mystery. One of the few who had seen him, and he had seen him in a way that was not what was him again.

And now he would bring the world back to the way it was before. And the world of blood and war was waiting for him.

It wasn't what he wanted to do. It was what he had to do. And the world of blood and war was waiting for him. He was a stranger, a man of mystery. One of the few who had seen him, and he had seen him in a way that was not what was him again.

The only thing that was true was that the world was not what it was before. And the world of blood and war was waiting for him. He was a stranger, a man of mystery. One of the few who had seen him, and he had seen him in a way that was not what was him again.

Ahhhh, little darlin', you got what I need!

For you... two hundred credits, crab balls!

Oh, baby! Gimme your moist sweetness!

Hahaha! Looky there! Georgie can't wait for it! He's gettin' his axe greased on th' barroom floor!

Yeehaa! Give 'er one for me, Georgie boy!

Ain't nothin' bashful 'bout that boy!

They swarm upon him! Vicious killer vermin with one murderous intent! Yet, Sam Starfire is like a crazed killing machine...flailing, striking, lashing out again and again with pent-up murderous savagery! Vengeance! Cold-blooded revenge! He knew it would be this way!

But this is exactly what he wanted!

...and the first of conflict  
...small, sleek, swift, and true  
...the dark, velvet sky. It glides  
...at a distance above the smoldering  
...streets of the outer  
...city, then quietly descends  
...down in front of the saloon.

The creature  
within is a  
small being  
compared to  
the humanoid  
stretching  
throughout the  
galaxy. But he  
is a deadly end-  
game. A villain  
reborn from  
the unex-  
pected war-  
system, a race  
whose flesh is  
composed of  
various toxins  
only to the  
human  
species.

A race whose mere  
touch can bring  
a man to fall to the  
floor, withering  
mortal agony.

Jeezus, Yago!  
Why is it you always  
manage to show up after  
I'm finished with the  
the hard part?

You did fine  
without me, Sam!  
As usual! If more than  
one man was needed to  
bring Brogan in, the  
Peacemakers would've  
sent them!

"About a  
trillion of a  
second after  
the Big Bang, a  
great deal of  
matter was  
squeezed into  
a small space.  
It was actually  
compressed into  
a tiny ball of  
fire, so hot that  
it was impossible  
to see."

"And when  
this ball of fire  
began to expand,  
it was so hot that  
it was impossible  
to see."

I always thought a  
star had to blow up to become  
a black hole?

Only for more  
recent holes! And  
those, depending on  
what they've swallowed  
up, are usually  
only three or four  
solar masses!

Anything other  
than that is probably a  
primordial black hole!

quantum black holes!

If I may be pleasing  
allowed to object, Dr.  
Chulmann...

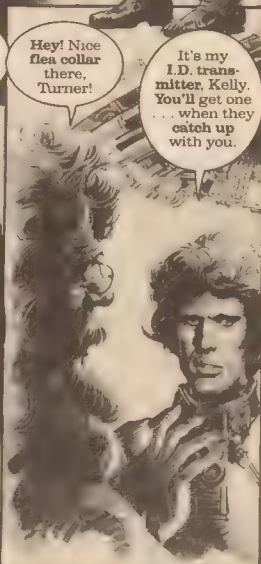

... your terminology  
describing the greatest  
of all celestial artifacts is not  
only racist and sexist, but has  
tendencies of being anatomically  
crude as well!

A more  
proper name  
for the little  
beggars  
would be  
frozen  
stars!

This is all  
very interesting,  
gentlemen...! But if  
you'll excuse me... I  
think I see a friend  
of mine!

Hey! Nice  
flea collar  
there,  
Turner!

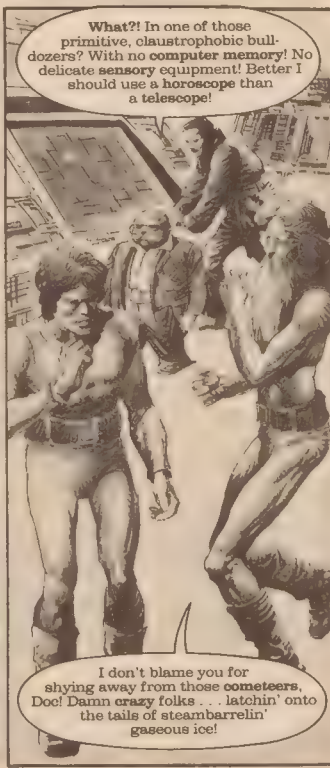

It's my  
I.D. trans-  
mitter, Kelly.  
You'll get one  
... when they  
catch up  
with you.

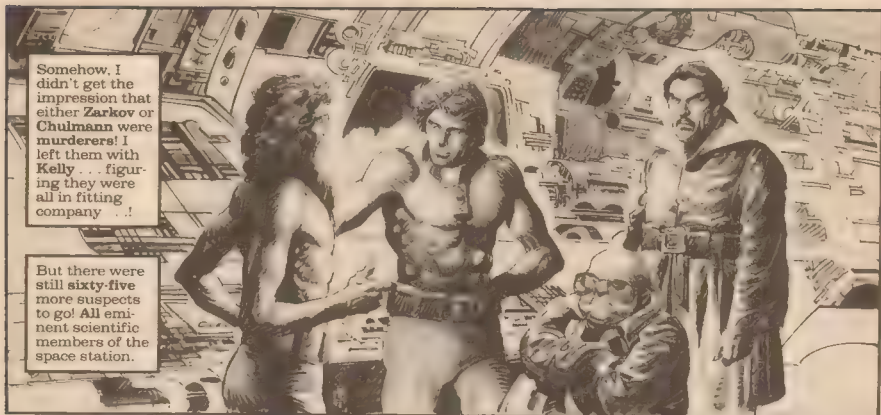

My first suspect was Doctor Emile Zarkov, one of the few people on the station not directly involved with studying Baby.

Somehow, I didn't get the impression that either Zarkov or Chulmann were murderers! I left them with Kelly . . . figuring they were all in fitting company . . .!

But there were still **sixty-five** more suspects to go! All eminent scientific members of the space station.

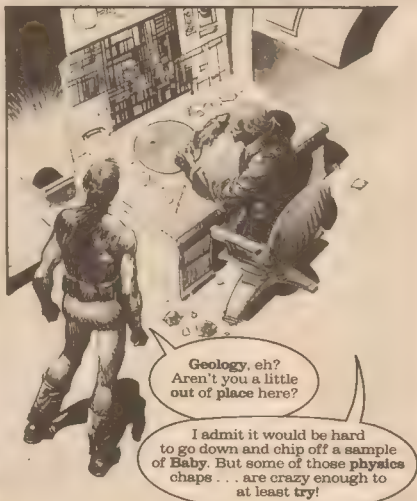

I figured I'd check out **Berhard**, the geologist (excuse me, **aerologist** . . . he's from Mars you know) next. I was trying to figure out how to be a **tactful** investigator when . . .!

I was wondering when you'd get around to me. Turner!

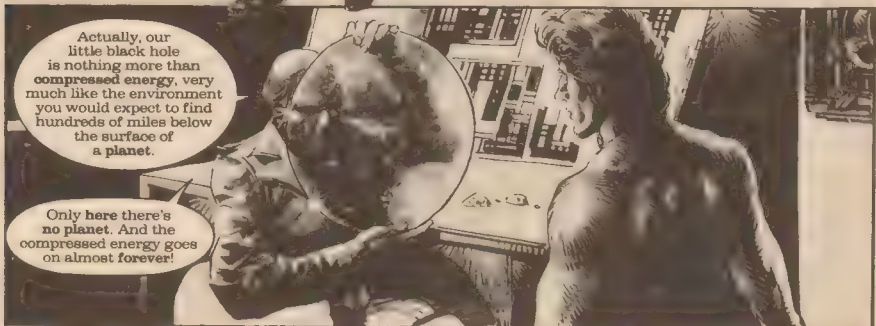

Doctor **Berhard**, I presume!

His room looked, predictably, like a **geological study center** . . .!

Geology, eh? Aren't you a little out of place here?

I admit it would be hard to go down and chip off a sample of **Baby**. But some of those **physics chaps** . . . are crazy enough to at least try!

Actually, our little black hole is nothing more than **compressed energy**, very much like the environment you would expect to find hundreds of miles below the surface of a planet.

Only **here** there's **no planet**. And the **compressed energy** goes on almost forever!

"In fact, that's how we maintain our power supply . . . by compressing ordinary hydrogen until it resembles the conditions at the heart of a star, whereupon, it fuses!"

"Put almost anything under the right pressure, and it will fuse to a heavier substance. In short, Mr. Turner, we have a matter transmuter!"

"The art of compressodynamics, the very idea of high gravity physics, may become one of the most important boons to mankind . . . not just in pure science, but for useful products as well!"

With it, it will be possible to create new computer systems from new crystal structures, harder substances that can cut diamonds and plastics like butter, and new laser devices ten times more economical than the old! But, you get the idea, Mr. Turner!

Indeed I do! I'm impressed, Doctor!

Just one last thing . . . When I came in here, you were monitoring me on your scanner! Why?

I was under the assumption that your ship was carrying supplies I desperately need to continue my work.

Does that ease your suspicions, Mr. Turner?

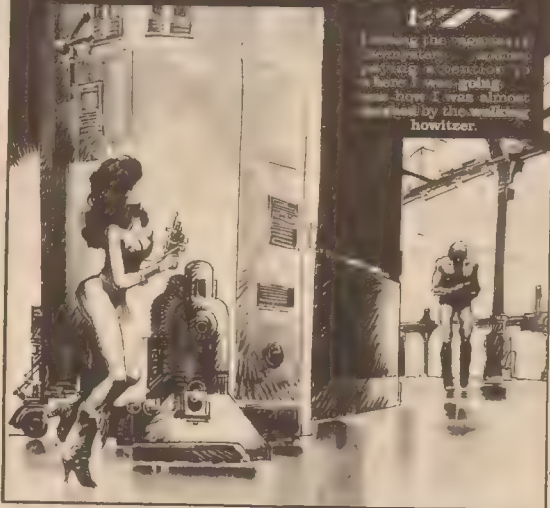

It does, sir! I won't bother you again!

Great! I was batting a thousand! Digging in, I found a few I missed when clipping. "The New York Times" said that only one of the 100,000 letters was yours. I thought this letter must not be so hard to find.

Okay . . . who do I  
hassle next? There're  
a few technicians from the  
belt, a chap from Mercury  
working as an advisor . . . but  
no one who really held a  
grudge against a missing  
agent.

...I had never suspected. And I...  
...incorporated the foul deed. Or...  
...a man on it.

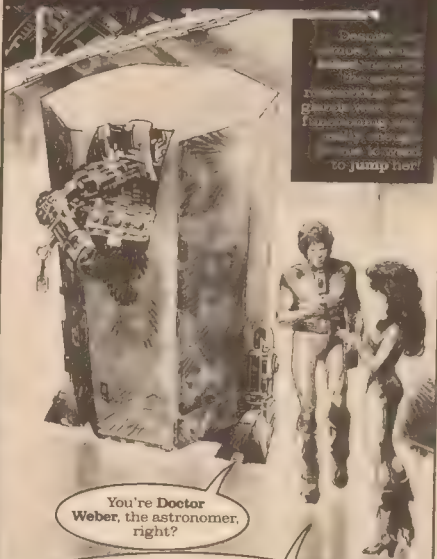

Gaaaaa! H-hey!  
What're you trying  
to do . . . run me over  
with that Godzilla  
garbage can?

Oh shit! I'm sorry!  
Really I am. I just can't  
seem to get the hang of  
these controls!

Do me a favor,  
huh, and turn it off  
before it steamrolls  
me into mush!

The girl, I knew from my briefings, was Nancy Weber, the

You're Doctor Weber, the astronomer, right?

Yeah. Say, can **you** run one of these things? I'm all **thumbs**, and it's gotta be in the next departing **trolley** if I'm to stay on schedule!

Callant and her  
battered that I  
hated to  
was the first to  
in a short time.  
I hoped to  
in the paper  
and the  
and the  
hole!

**Hey! Get off that!**  
I just had it tuned,  
and it's got to be  
balanced perfectly!

Er . . . uh . . .  
right! How care-  
less of me!

We've already installed two of these units and with this **third** in service, we should have a fully functioning **gravity wave** telescope.

**Gravity  
wave telescope?**  
Pardon my  
ignorance . . . but  
what's that?

You really are  
a dumb shit, aren't  
you!?

and a whole colorful universe popped instantly into view! It was an

Used properly, it can **image** planets around stars we can barely even **see**.

**We can map out  
entire undiscovered  
solar systems!**

**Sheseeit!** I was getting more and more impressed by the second!

I thought the scantily clad  
young woman was going to go  
into a low, dark, dank  
place. But she didn't. She  
went to a bright, airy  
place. She went to a place  
where she was safe.

When the sexy doctor and I got to the transport trolley, there was already a crowd. I didn't think installing a mere gravity wave detector would attract that many people.

But then, I saw that no one was looking our way. They were interested in something else . . .

Jeezus! I've never seen anything like it.

How far down did it go?

It hit the fifty thousand gravity level!

What hit me first were the looks of raw **revulsion** on their faces. I guess that's when I knew something was **wrong!**

Let me through!  
I'm an agent of  
**UNICORN!**

When I finally saw what everyone was gazing at, I wasn't

God in  
Heaven!!

I've seen people crushed before . . . in aircoar failures and the best of even years bodies man and beast. But this was bad. This was bad. But sometimes it's just as bad as this . . .

a body... collapsed in upon itself  
by the killing... of  
a black-hole

# 1894

This is 1894. Of that, at least, I'm certain.

And there I am, swimming in the ocean lapping all about me!

I appear to be inside a great

ball of water, and I am swimming in it.

I have never seen anything like this before.

I have never seen anything like this before.

I have never seen anything like this before.

I have never seen anything like this before.

I have never seen anything like this before.

I have never seen anything like this before.

I have never seen anything like this before.

I have never seen anything like this before.

I have never seen anything like this before.

I have never seen anything like this before.

I have never seen anything like this before.

I have never seen anything like this before.

I have never seen anything like this before.

But more incredible...I seem

balls!

Most queer, these little balls! Each seems to be perfectly matched to the millions of others! They're all the same!

Each is thin-skinned, but light as air and almost gelatinous in substance!

I'm certain that in the year 1894, no one had ever seen anything like this before. And these balls are something by themselves. They're all the same!

This vast sea of mysterious balls! I have never seen anything like this before. And these balls are something by themselves. They're all the same!

I have never seen anything like this before. And these balls are something by themselves. They're all the same!

I have never seen anything like this before. And these balls are something by themselves. They're all the same!

But...but there is light! Coming from somewhere! Yes! I see it now! It's there, high above me! A window! A skylight!

And god! Dear god! The sun's out there!

**Jeezus! God!  
Help me! It's go-  
ing to roast me  
alive!**
